HD viewing window

The visual viewing port is more convenient than the traditional stainless steel cover, and the feeding situation inside can be easily observed

Infrared induction cutting

There is an infrared sensor at the bottom of the discharging port, and the hand reaches out to sense the material without manual switching.

Interface and switch

The product power cord is made of engineering plastics, highly insulated, and will not leak electricity, making the machine safer and more stable.

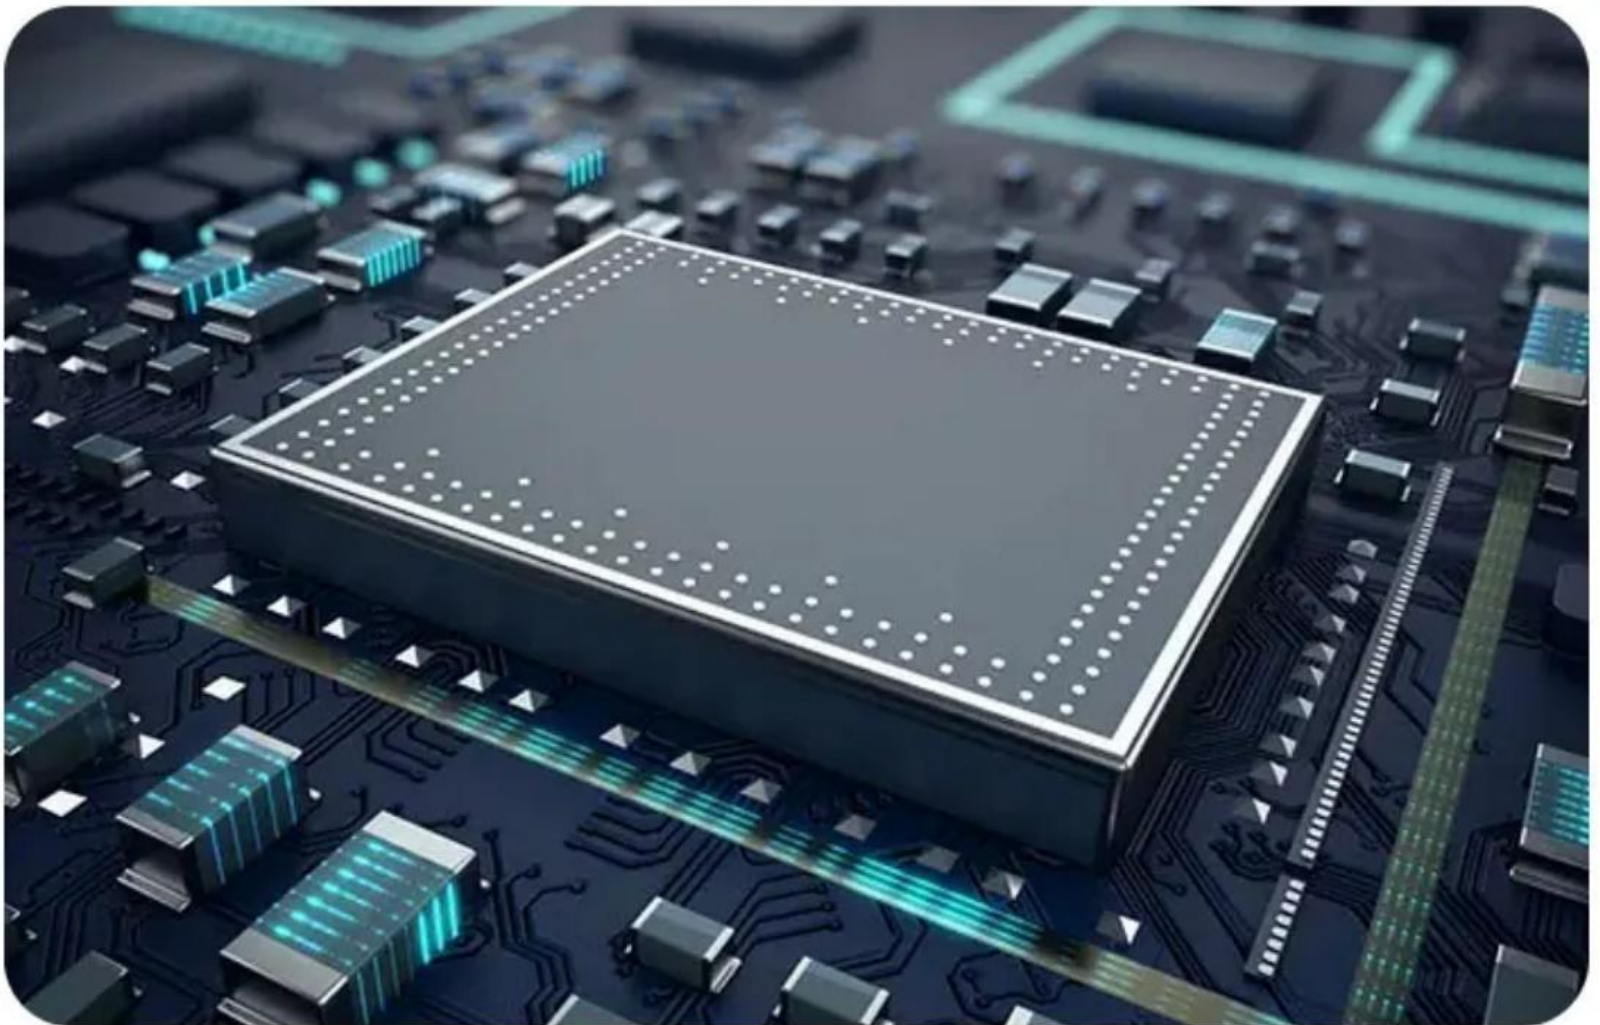

Universal wheel

The bottom of the machine is equipped with four universal wheels, the support is stable, and it can be pushed at will, and you can go wherever you want

INTELLIGENT CONTROL

Intelligent control, using microcomputer chip to realize automatic multi-function packaging machine, accurate measurement, automatic packaging, no manual weighing, intelligent and accurate blanking

Are you still **packing manually?**

Weigh every day, aren't you tired?
Your efforts, we understand!
The machine can share more for you.

Total labor cost per day

**TOTAL MACHINE
COST PER DAY**

One day output of full labor

**ONE DAY OUTPUT
WITH MACHINE**

MACHINE VS. LABOR
**Invisible costs have
been reduced**
