### Application :

Applies to plastic blister (made by PVC, PET, PETG etc.) seal with paper card. It's suitable for these packaging such as toys, stationery, foods, commodity, cosmetics, hardware etc.

### Machine features

1. The power is pneumatic and the pressure is high. Three pairs of lower molds work in turn, with high production efficiency.
2. The machine has large power and large platen area.
3. The operation is easy and flexible: Tidy paper card, product, blister before putting into the mold manually, turn rotary table for sealing, put the product, three station cycle time is between four seconds to six seconds, depends on the operating experience.
4. Packaged products are various: The machine is mainly suitable for the user group with demands on product varieties and saving cost.
5. The machine is the priority in blister packaging field.
6. This model is a small machine, four wheels to move freely.

Heating size	300x500mm
