Why use vacuum packaging machine

Reject external bacteria and slow down food oxidation

Vacuum preservation

Ordinary preservation

Effectively prolong the food preservation cycle

Vacuum preservation

Reduce pressure and low oxygen to seal, prevent food deterioration and maintain original flavor

General preservation

The fresh-keeping effect is poor, and the easily oxidized food materials are easy to deteriorate and rot

DETAIL

1

Microcomputer control panel

Microcomputer control panel design, more accurate control, more convenient operation, save time and effort

2

High power vacuum pump

Using high-quality high-power vacuum pump and brand components, the vacuum effect is better and more durable.

3

Independent power switch

Safety knife switch design, safer use.

4

Porous heat dissipation

There are no cooling holes on the left and right sides of the machine, which can fully dissipate heat by using the circulation of the fan, and the machine can be used for a longer time.

Large motor has strong suction

The high-power 20 vacuum pump is used, and the vacuum effect is good.
